DEFIANCE CLINIC

45 Years of Business Achievement

Defiance Clinic is a physician owned-and-operated medical group dedicated to providing excellent, comprehensive healthcare. The founding partners, led by Dr. John Fauster, introduced the concept of multi-specialty group practice to Defiance. Their successors continued the tradition of leadership by bringing advances in medicine to our community and introducing services for patient convenience such as Urgent Care.

Most recently - in partnership with St. Vincent Mercy Medical Center- they established Mercy Hospital of Defiance, a twenty-three (23) bed medical and surgical facility with a 24-hour Emergency Center. They look forward to continuing the tradition of excellence for the benefit of our fine community.
